

TaraTrabaho – AI-Powered Job-Hunting Buddy

An AI-powered web application designed to help Filipinos easily create resumes, find matching jobs, and apply securely—making the job-hunting process simpler and more accessible for everyone.

Description:

The sitemap of TaraTrabaho: Your Job-Hunting Buddy shows how users can move around the web app. At 1st is the landing page, which shows the feature of the web application and the option to create an account. There are also sections for the User Profile, About/Contact, and Login/Register. An Admin Dashboard is included for managing users, jobs, and system settings. The sitemap makes it clear which pages are connected and helps us plan the flow of the application in a simple and organized way.

Main Sections and Subsections

1. Admin Panel

- Manage Users → Allows the admin to approve, suspend, or update user accounts.
- Job Listing Management → Admin can add, edit, or remove job listings in the system.
- Reports → Admin can view analytics such as number of users, resumes generated, and job applications.

2. User Dashboard

- Job Application → Users can apply to jobs directly from the system.
- Profile Setup → Users can create and update their personal information, skills, and education.
- AI Resume Builder → Guided questions and AI integration help users generate a professional resume.
- AI Job Matching → AI recommends jobs based on the user's skills and preferences.

3. Landing Page

- About Us → Displays information about TaraTrabaho's mission and purpose.
- Contact → Provides users with ways to reach the team for support or inquiries.
- Sign Up → New users can register and create an account.

4. Login Page

- User Login → For job seekers to log into their accounts.
- Admin Login → For administrators to access the admin panel.

5. Support

- Privacy Policy / Terms → Contains policies on user data, security, and usage terms.
- Help Center → Provides FAQs and troubleshooting guides for users.

6. Logout
